Nurses who hold the NRR credential are eligible to work in a variety of settings, including hospitals, rehabilitation centers, and long-term care facilities. They may provide care to patients with a variety of conditions, such as stroke, spinal cord injury, traumatic brain injury, and amputation.

Eligibility Requirements

To be eligible to take the NRR exam, nurses must meet the following requirements:

* Be a licensed registered nurse (RN) in the United States. * Have at least 2,000 hours of experience in rehabilitation nursing within the past 5 years. * Have completed a minimum of 30 contact hours of continuing education in rehabilitation nursing within the past 5 years.

Exam Details

The NRR exam is a computer-based exam that consists of 120 multiple-choice questions. The exam covers a variety of topics, including:

* Rehabilitation principles and concepts * Assessment of patients with disabilities * Planning and implementing rehabilitation interventions * Evaluation of rehabilitation outcomes * Professional ethics and legal issues

The exam is timed and candidates have 4 hours to complete it. The passing score for the exam is 75%.

Preparation Tips

There are a number of things that nurses can do to prepare for the NRR exam. Some helpful tips include:

* Review the exam blueprint to familiarize yourself with the topics that will be covered. * Take a practice exam to get a sense of the format and difficulty level of the exam. * Join a study group to review the material with other nurses. * Seek out continuing education opportunities in rehabilitation nursing.

Benefits of Certification

There are a number of benefits to obtaining the NRR credential. Some of the benefits include:

* Increased job opportunities * Higher earning potential * Enhanced professional credibility * Improved patient care

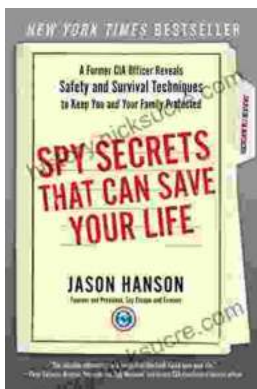

The NRR credential is a valuable credential for nurses who specialize in rehabilitation. The certification demonstrates that nurses have the knowledge and skills necessary to provide safe and effective rehabilitation care. Nurses who are interested in obtaining the NRR credential should meet the eligibility requirements, study for the exam, and take steps to prepare themselves for success.
